

# CLIMATE ASSETS GROWTH FUND 'B' SHARE CLASS

SEPTEMBER 2025

## FUND OVERVIEW

The Fund aims to ensure that at least 70% of the Scheme Property is invested in assets with material sustainability characteristics. The Investment Manager monitors the proportion of revenue generating activity within each company which is aligned with one or more of the UN Sustainable Development Goals (SDGs). At least 50% of the revenue generating activity of each company must be aligned with one or more of the SDGs for a company to be considered to have material sustainability characteristics. The Fund may also allocate capital to countries that are themselves making meaningful progress towards meeting the SDGs. Such sovereign debt instruments are considered to have material sustainability characteristics when the issuing country has achieved an SDG index score of 75 or higher in the most recent UN Sustainable Development Report.

## FUND OBJECTIVE

The aim of the Fund is to provide capital growth, net of fees, over the longer term (rolling 5 year periods) and to support the development of sustainable societies by pursuing five environmental and social themes across the areas of:

- **Clean Energy:** by investing in companies whose products, solutions or services reduce the use of hydrocarbon-based fossil fuels;
- **Food:** by investing in companies whose products, solutions or services address the imbalance in the supply of and demand for high quality nutrition;
- **Health & Well-Being:** by investing in companies whose products, solutions or services improve ineffective healthcare, protection and support systems;
- **Resource Efficiency:** by investing in companies whose solutions, products or services reduce the depletion and inefficient use of the earth's scarce resources; and
- **Water:** by investing in companies whose products, solutions or services improve the imbalance in the supply of and demand for water and water systems.
