## FUND OVERVIEW

The Fund aims to ensure that at least 70% of the Scheme Property is invested in Sustainable Assets. The Investment Manager monitors the proportion of revenue generating activity within each company which is aligned with one or more of the UN Sustainable Development Goals (SDGs). At least 50% of the revenue generating activity of each company must be aligned with one or more of the SDGs for a company to be considered a Sustainable Asset. The Fund may also allocate capital to countries that have themselves made significant progress towards the development of sustainable societies. Such sovereign debt instruments are recognised as Sustainable Assets when the issuing country meets certain criteria within the most recent SDSN Sustainable Development Report.

## FUND OBJECTIVE

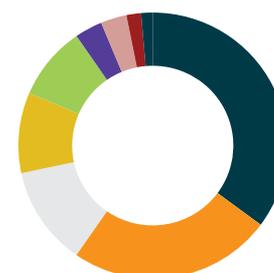

The aim of the Fund is to provide capital growth and income, net of fees, over the longer term (rolling 5 year periods) and to support the development of sustainable societies by:

- pursuing five environmental and social investment themes, as follows:
  - Clean Energy:** by investing in companies whose products, solutions or services reduce the use of hydrocarbon-based fossil fuels;
  - Food:** by investing in companies whose products, solutions or services address the imbalance in the supply of and demand for high quality nutrition;
  - Health & Well-Being:** by investing in companies whose products, solutions or services improve ineffective healthcare, protection and support systems;
  - Resource Efficiency:** by investing in companies whose products, solutions, or services reduce the depletion and inefficient use of the earth's resources and/or help to expand the circular economy;
  - Water:** by investing in companies whose products, solutions or services improve the imbalance in the supply of and demand for water and water systems.
- allocating capital to countries that have made significant progress towards the development of sustainable societies with respect to both people and the planet, including in relation to the five environmental and social investment themes (**Clean Energy, Food, Health & Well-Being, Resource Efficiency and Water**), by investing in the sovereign debt instruments of such countries.
