

MANAGED PORTFOLIO SERVICE CAUTIOUS STRATEGY

November 2025

STRATEGY OVERVIEW

The strategy is constructed using the 'Building Blocks', a range of eight funds exclusive to Quilter Cheviot that are designed to provide specific geographic or asset class exposure. The Building Blocks are invested in a combination of direct equities, bonds and / or external fund holdings, dependent upon the exposure being sought.

CHARGES

Initial Charges Nil

Annual Management Charge 0.20%

Where your investments are held in Quilter Cheviot's custody, there is an additional 0.25% charge.

Weighted Cost of Underlying Funds* 0.19%

Costs and charges data for the underlying funds held within the MPS Strategies is sourced from Morningstar. Where costs and charges data for a fund is not available from Morningstar, Quilter Cheviot will use alternate data sources or reasonable endeavours to estimate this figure.

*This figure represents the cost of collective funds in the portfolio, which includes the charges made by external fund managers, the cost of running these funds and the cost of transactions within the funds. The costs will change with changes to the funds in the portfolio.

STRATEGY OBJECTIVE

The investment objective is to generate a return from the income from the portfolio. The Quilter Cheviot MPS Cautious Strategy is designed for an investor with a time horizon of more than 1 year, and a lower tolerance for risk that regardless of market conditions would only be comfortable with minimal variation or disruption to capital value or income.

IMPORTANT INFORMATION EXPLAINED

Strategy Benchmark. For details of the current and / or historic strategy benchmark constituents, please contact your usual Quilter Cheviot representative or, alternatively, mps@quiltercheviot.com.

Historic Yield. The level of yield actually achieved on your portfolio will be dependent on the tax treatment of the product you have invested in and your personal tax circumstances. The historic yield data is calculated using the previous year's dividend information and the bid or mid price from the last dividend. Estimated gross yield is not a reliable indicator of future returns.

Asset Allocation. Clients investing in the strategy for the first time, either via new business or a switch, will have their portfolio determined by the fund and asset allocations set at the last rebalance date. The asset allocation is shown at a point in time reflecting the last rebalance date. Due to market movements there will be a difference in the asset allocation of existing clients' portfolios as at the date of the factsheet.

Capital Gains. Our MPS does not take unrealised capital gains into account when making changes to client portfolios. This means there may be occasions when realised gains are in excess of your Annual Exempt Amount (AEA), which may result in you having to pay capital gains tax (CGT).
